BELKIN

Pro series Non IEEE Compatible Parallel Printer Cable, 3.0m

This Belkin Pro Series cable assembly interfaces all PCs with DB25 female parallel ports to parallel printers with 36 position Centronics female ports. This cable will also fully support all non IEEE 1284 bi-directional printers. It is not designed to be used in conjunction with IEEE 1284 compliant computers or printers. When interfacing printers that comply with the IEEE 1284 specifications, Belkin recommends the use of our IEEE1284 compliant cables (reference part number CC3003aed10).

Benefits

- Connect your PC to your parallel printer
- 3m
